DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 1,5, 6, 13, and 19-24 are rejected under 35 U.S.C. 102(a) as being anticipated by Combest.

Combest discloses the use of a speaker mounting device with an enclosure (12) in which loudspeaker components are mounted; and a bracket(26) sized to fit in a recess formed in a rear portion of the enclosure (see figure 1), wherein the recess is sized and shaped to fit the bracket, the bracket having features to facilitate attachment of the bracket to at least one surface(see figure 2) and having a plurality of posts(30,34) positioned to extend through a corresponding hole in the rear portion of the enclosure , the post being adapted to coact with a corresponding fastener to secure the enclosure to the bracket.

Combest also discloses the use of a loudspeaker that is adapted to fit in a corner (see figure 2) and in the portion of the recess formed in the wall of the enclosure, the rear portion of the enclosure having two truncated side walls at an angle to each other with a flat back wall there between, the recess being formed in the back wall and both of the side walls (see figures 2 and 3). Combest also

discloses the use of a bracket with a sidewall and a loudspeaker with two holes formed in the rear wall of the bracket that accommodate a fastener (see figure 1).

Allowable Subject Matter

3. Claims 2-4, 7-11,12, and 14-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments filed 4/21/03 have been fully considered but they are not persuasive. The applicant argues the lack of a recess in the enclosure. However in figure 2 of the speaker mounting device as disclosed by Combest, there is clearly shown a recess formed in a rear portion of the enclosure wherein the recess is sized and shaped to fit the bracket (see figure 2) and the bracket having features to facilitate attachment of the bracket to at least one surface thereof. Therefor, Combest clearly discloses the use of a speaker mounting device with an enclosure (12) in which loudspeaker components are mounted; and a bracket (26) sized to fit in a recess formed in a rear portion of the enclosure (see figure 1), the bracket having features to facilitate attachment of the bracket to at least one surface (see figure 2) and having a plurality of posts (30,34) positioned to extend through a corresponding hole in the rear portion of the enclosure, the post being adapted to coact with a corresponding fastener to secure the enclosure to the bracket.

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
